# Restoring Implants

If you have knowledge of implant dentistry and would like to become more involved in restoring implants, this one day practical course is suitable for you. The hands-on exercises are based around the Straumann® Dental Implant System and you will finish the day with the appropriate basic instrumentation to restore Straumann dental implants. Ideal for clinicians and their technicians and CDTs who are working as a team in implant dentistry.

Courses are located in various regions throughout the UK.

## COURSE HIGHLIGHTS

- Revision of basic principles for restoring dental implants
- Discussion of restorative differences between soft tissue and bone level implants
- Overview of options for restoring soft tissue level and bone level implants
- Hands-on workshops
- What can go wrong and how to avoid pitfalls

DATE	LOCATION	SPEAKER
Thursday 7th May 2015	Coventry	Matt Perkins
Wednesday 27th May 2015	Glasgow	Colin Burns
Wednesday 3rd June 2015	Belfast	David Nelson
Wednesday 18th November 2015	London	Phil Freiburger

## KEY INFORMATION

**Course Duration:** 1 day

**CPD:** 6.5 hours

**SAC CLASSIFICATION:** Straightforward Level

**Course Fee:** £450 + VAT per day (€536). Euro prices are subject to change without notice

**No of Delegates:** 15

**Lunch and refreshments available**

**Also includes:** The course fee includes a mini prosthetic kit which will enable you to begin restoring simple cases

NB: This course may be attended as a 'course fee only' for £200 + VAT (without the inclusion of the mini prosthetic kit).

## BOOKING

To reserve your place please call the Straumann Education Department on +44 (0) 1293 651270 or email [events.uk@straumann.com](mailto:events.uk@straumann.com)

# Manchester Modular Course

## including Live Skills

Ideal for any clinician wishing to incorporate implant treatment into their practice safely and with confidence through being exposed to Straumann - one of the most documented implant systems available. The course will especially suit those who have already attended introductory lectures and who now wish to update their knowledge and gain practical experience within the field of implant dentistry.

This course includes an opportunity for delegates to place their first implant in a controlled mentored environment. The course includes intensive didactic teaching.

Duration of the course is two days per month from March 2015 to November 2015 (excluding July 2015 and August 2015).

### COURSE HIGHLIGHTS

- Understand the principles of patient assessment and treatment planning
- Discuss implant selection criteria
- Explore the surgical and restorative protocols for achieving optimum function and cosmetic results
- Practical hands-on placement of implants and their restorations
- Understand the different bone grafting techniques and materials currently available and their use
- Principles of occlusion in implant dentistry

### KEY INFORMATION

**Course Educator:** Paul Swanson & Faculty

**Course Dates:** March 2015 - November 2015

**Duration:** 14 days

**Venue:** Manchester

**Delegates:** 8

**Course Fee:** £6,500 + VAT

**CPD:** 91 Hours Verifiable

### BOOKING

To reserve your place please call the Straumann Education Department on +44 (0) 1293 651270 or email [events.uk@straumann.com](mailto:events.uk@straumann.com)

# Cranmore Certificate in Implant Dentistry

This is a comprehensive introduction to the surgical and restorative aspects of implant dentistry. It will include a combination of lectures, live surgery and mentoring. The laboratory, restorative, periodontal and imaging aspects of implant dentistry will be presented by professionals highly experienced in these disciplines.

Each delegate will learn about appropriate case selection and will place implants on patients in a mentored environment in accordance with FGDP guidelines.

Hygienists and dental surgery assistants from your team are encouraged to attend, for observation and to assist with introducing dental implants into your practice.

## REQUIREMENTS

Delegates will be required to provide evidence of the following:

- General Dental Council registration
- Professional indemnity insurance at an appropriate level
- Current certificate of immunisation against Hepatitis B
- To bring 3 - 4 potential suitable patients and two will be selected from the assessment

## KEY INFORMATION

**Course Educator:** David Nelson BDS MSC (IMP DENT), Owen Thompson BDS FDSRCPS(GLASG) MFGDP(UK) MGDSRCPS(GLASG), Dhru Shah BDS MCLinDent MPerio RCS Edin, Luke Barnett & Tony Hulbert

**Course Dates:** Annual intake from Sept 2015 - May 2016 (Friday & Saturday 12 days over 9 months)

**Venue:** Belfast

**Delegates:** 6

**Course Fee:** £6,000 includes tuition, course notes, materials for hands-on sessions, two restored implants (including laboratory fee and outlay), lunch and refreshments and one years complimentary ITI membership. Patients will pay a reduced fee for the implant treatment undertaken.

**CPD:** 72 Hours Verifiable

## BOOKING

To reserve your place please call **Brenda Nelson** on  
**+44 (0) 754 750 5001** or email **brenda@cranmoredental.com**

# Certificate in Implant Placement and Restoration

This course is held over one year and will help delegates develop the skills and confidence to tackle implant treatments. During the course we will guide you on how to identify patients who can be treated by GDPs. The course will cover patient management and treatment planning, and surgical and restorative procedures of dental implant therapy.

## COURSE OUTLINE

- Introduction and case selection
- Surgical aspect of implants - hands-on workshop placing implants into models
- Clinical placement (each delegate will place two implants)
- Post-op care and review of surgical day. Prosthetic options, hands-on workshop and a look at impression copings and abutment range
- Clinical day - impression taking
- Fit of final restorations
- Review of finished cases

## KEY INFORMATION

**Course Educator:** Dr Paul Quinlan

**Course Dates:** June 2015 - February 2016

**Venue:** Ballsbridge & Dublin

**Delegates:** 4

**Course Fee:** €8,000 (full course), €4,000 (restoration only)

**CPD:** 60 hours

## BOOKING

To reserve your place please call **Cherie** on **+353 (01) 631 4887** or email [cherie@quinlandentalcare.com](mailto:cherie@quinlandentalcare.com)

## Live Skills - Liverpool Course

This Live Skills course gives delegates an opportunity to place their first implant in a controlled mentored environment following two days of intensive didactic teaching.

This is one of the only courses in the UK where patients are pre-prepared and assessed for straightforward implant cases.

**Delegates are expected to have a commitment to some aspect of implant or surgical training prior to this course.**

### KEY INFORMATION

Course Educator: Paul Swanson

Course Dates: 27th April 2015 - 1st May 2015

Duration: 5 days

Venue: Liverpool

Delegates: 6

Course Fee: £5,000 + VAT

CPD: 32.5 Hours Verifiable

### BOOKING

To reserve your place please contact **Susan Tappenden** on **+44 (0) 151 7243351**

# Live Skills - Implant Surgery

The Campbell Academy Live Skills course gives delegates an opportunity to place their first implant in a controlled mentored environment following two days of intensive didactic teaching.

This is one of the only courses in the UK where patients are pre-prepared and assessed for straightforward implant cases.

**Delegates are expected to have a commitment to some aspect of implant or surgical training prior to this course.**

## Day one:

- Course meet up
- Sharing of previous experience
- Intensive case selection
- Education session
- Basic surgical skills
- Intensive implant placement practicals and associates' learning

## Day two:

- Implant marketing within the practice
- Discussion of treatment with patients
- Introduction to delegates individual cases
- Case planning for surgical sessions

## Day three:

- Placing dental implants in live pre-prepared patients with audio-visual link up and full surgical debrief

## KEY INFORMATION

**Course Educator:** Colin Campbell & Andrew Legg

**Course Dates:** 19th - 21st March 2015 | 5th - 7th November 2015

**Duration:** 3 days

**Venue:** Nottingham

**Delegates:** 10

**Course Fee:** £2,500 + VAT

## BOOKING

To reserve your place please email

**info@campbellacademy.co.uk** or call **+44 (0) 115 9823913**

## Live Skills - Aesthetic Implant Surgery

Following the success of our Straumann Live Skills Implant Surgery course, we were keen to help delegates explore more complex implant procedures while maintaining a safe mentored environment.

Aesthetic Implant Surgery allows delegates to tackle more demanding cases in the aesthetic zone as well as introducing guided bone regeneration and contour grafting as part of the treatment protocol.

Following the ITI (International Team for Implantology) Treatment Protocols, patients will be pre-selected and assessed according to the complex surgery criteria. Delegates will be given two days of intensive didactic training in these advanced techniques before being given the opportunity to place implants on live patients.

**Delegates are expected to have experience placing implants before attending this course.**

### KEY INFORMATION

**Course Educator:** Colin Campbell & Andrew Legg

**Course Dates:** 26th - 28th November 2015

**Duration:** 3 days

**Venue:** Nottingham

**Delegates:** 10

**Course Fee:** £2,500 + VAT

### BOOKING

To reserve your place please email [info@campbellacademy.co.uk](mailto:info@campbellacademy.co.uk)  
or call **+44 (0) 115 9823913**

# Live Skills -

## Sinus Graft Surgery

The aim of The Campbell Academy Sinus Grafting Live Skills course is to give all delegates the greatest exposure to sinus grafting procedures in a course environment.

Using a combination of model surgery, cadaver surgery and live surgical sessions, delegates will be given the best possible grounding to provide this procedure on their own patients.

Comprising one day of live surgery at The Campbell Clinic and two days of cadaver surgery at the University of Coventry, this promises to be the best possible introduction for clinicians to provide sinus grafts on their own patients.

The sinus graft procedure will expand individual delegates' practices enormously, allowing them to place and restore implants in sites which would otherwise be inaccessible.

The course is designed to be weighted towards hands-on procedures with short theoretical lectures and demonstrations to give the maximum amount of academic input, but without compromising surgical procedure experience.

**Delegates are expected to have experience in a variety of implant and surgical procedures before embarking on this course.**

**We are also delighted to have two oral and maxillofacial consultants at the Academy who will be helping us provide this comprehensive course.**

### KEY INFORMATION

**Course Educator:** Colin Campbell, Andrew Legg, Craig J Wales FDSRCS(Ed) FRCS FRCS(OMFS),  
Colin MacIver MBChB BDS FRCS FDS FRCS Ed FRCS(OMFS)

**Course Dates:** 7th - 9th May 2015

**Duration:** 3 days

**Venue:** Nottingham

**Delegates:** 20

**Course Fee:** £2,500 + VAT

### BOOKING

# FGDP(UK) - Diploma in Implant Dentistry

Based on the FGDP(UK)'s Training Standards in Implant Dentistry (recognised by the GDC as the authoritative training standards for Implantology), this successful and highly regarded two-year postgraduate programme offers the ultimate training from experts in the field.

- Practical sessions at every contact learning unit
- Carefully crafted syllabus, ensuring students can take skills directly back to their practice
- Teaching delivered by world-renowned lecturers
- Provides the theory behind the practice, enabling students to justify the treatments offered to patients
- The gold standard in implant dentistry courses
- Qualification / Diploma awarded by the prestigious Royal College of Surgeons of England
- Credits from the programme can be used towards an MSc in Implant Dentistry run by the University of Leeds

## KEY INFORMATION

**Course Fee:** £19,700 for FGDP(UK) members and £20,700 for non-members.

A registration fee of £5,600 and first instalment (£3,020 for non-members; £2,820 for members) are taken prior to the start of the course. The remaining fees are taken over 4 instalments within the first 12 months of the course. The fees cover tuition, course notes, assignment-marking, materials for practical sessions, catering for contact sessions and administration.

### THE FEES DO NOT COVER:

- Access to journals
- Subsistence
- Overnight accommodation
- Travel

## COURSE OUTLINE

This highly regarded, two-year postgraduate dental course offers a practical-based training pathway, ensuring that you can provide patients with high quality treatment, both aesthetically and functionally.

The FGDP(UK) Diploma in Implant Dentistry has been designed with busy practitioners in mind, allowing you to develop enhanced skills with minimal time away from your practice.

Completing the course will give you the equivalent of 120 postgraduate credits, which may be also used towards MSc courses in Implant Dentistry run by the University of Leeds or the DrMedDent at the University of Tübingen, Germany.

### Contact learning (30 credits)

- Eleven units over 2 years consisting of interactive seminars and practical sessions
- Nine 2-5 day units at RCS in London plus 2 units of either 2 or 3 days which take place in Europe

### Clinical component (45 credits)

- Observation of clinical procedures being carried out at accredited training practices
- Eight to ten clinical case reports under the peer support system, carried out under the guidance of local course tutors

### Self-directed distance learning (45 credits)

- Critical reading and completion of 13 assignment topics
- Critical review of reading lists

## MSc in Dental Implantology

The MSc in Dental Implantology with associated Postgraduate Certificate and Diploma levels offers a part-time modular postgraduate qualification in Dental Implantology.

The course is delivered on a distance learning basis with extensive use of ePortfolio, eLearning material and work-based assessments. Regular study days and clinical practice placements will be held throughout the year in the South West of England.

This is an exciting opportunity for you to further develop your skills in implant dentistry. By attending this high profile course you will gain theoretical knowledge and practical clinical experience in the treatment planning, surgical placement, restoration and maintenance of dental implants in a course specifically designed for you.

The programme has been designed to allow you to gain experience of the use of dental implants in prosthodontic treatment within a supervised environment.

- Practical sessions at every contact learning unit
- Carefully crafted syllabus, ensuring students can take skills directly back to their practice
- Teaching delivered by world renowned lecturers
- Provides the theory behind the practice, enabling students to justify the treatments offered to patients
- The gold standard in implant dentistry courses
- Qualification / Diploma awarded by the prestigious Royal College of Surgeons of England
- Credits from the programme can be used towards an MSc in Implant Dentistry run by the University of Leeds

### KEY INFORMATION

**Course Dates:** Application deadline 31st July 2015

**Course Fee:** UK/EU part-time: £5,050 per annum

**Plus bench fee:** Years 1 & 2 £6,925 Year 3 £1,500 payable in three installments

## PROGRAMME STRUCTURE

This modular programme is divided in to three sections - Certificate, Diploma and MSc levels. All students are admitted to the MSc in the first instance and can choose to exit the programme at certificate or diploma level.

**Year One** - Five theoretical and practical modules are delivered over a minimum of six study days during the year, as well as through distance learning material and self-directed study. Concurrent to these modules, you will attend clinical practice placements at the Bristol Dental Hospital, Bristol Royal Infirmary and The Dental Implant Clinic in Bath, Somerset. During the clinical practice placements you will diagnose, treatment plan and carry out implant placement under supervision in pre-selected patients. Following the completion of Year One, candidates can exit the programme at Certificate level or proceed to Year Two.

**Year Two** - A further five modules are delivered over a minimum of six study days, through distance learning material, self-directed work and work-based study. In addition, you will again attend clinical practice placements. Upon successful completion of Years One and Two, candidates may exit the programme with the award of a Postgraduate Diploma in Dental Implantology.

**Year Three** - After a further year, the award of MSc will be achieved upon the successful completion of a dissertation.

## Entry requirements

- BDS or equivalent United Kingdom General Dental Council registerable dental qualification
- At least one year's demonstrable postgraduate clinical experience
- Evidence of registration with the General Dental Council
- Adequate medico-legal indemnity insurance in order to place dental implants at the start of the clinical component of the programme
- Evidence of Hepatitis B immunity status
- Basic computer skills and access to a PC with internet connection (preferably broadband)

## BOOKING

Tel: **+44 (0) 117 342 4439** Email: **kate.badger@bristol.ac.uk**

# University of Central Lancashire

## Postgraduate Dental Implantology

The Postgraduate Dental Implantology course provides the busy general dental practitioner with a part-time educational route to acquire the skills and knowledge required of a Dentist with Special Interest (DwISI). Students can choose to study for an MSc or a PGDip.

Dental Implantology aims to develop a critical understanding and the ability to evaluate the clinical theory, practice and associated research applied to the practice of dental implantology as a mode of referred treatment. Our postgraduate course will provide you with the opportunities to apply the clinical theory, practice and associated research in the provision of dental implantology within the primary care setting. This course focuses on contemporary practice, teaching evidence-based principles and systems to ensure an optimal outcome for the patient and practitioner.

### PATIENTS ARE PROVIDED

The course offers MSc students 15 clinic placements in which UCLan Dental Clinic provide the patients during their diploma programme.

Applicants are invited to an Advice Day held at the Greenbank Building at UCLan, where prospective students are given an opportunity to talk to the Course Leader and tour the specialist facilities including the UCLan Dental Clinic where students will carry out their clinical placements.

### KEY INFORMATION

**Award type:** MSc/PGDip

**Ancillary Award:** Post-registration

**Level:** Postgraduate

**Study Mode:** Part-time

**Delivery Method:** Mixed mode

**Course Length:** MSc - Three years | PGDip - Two years

**School:** School of Medicine and Dentistry

**Campus:** Preston

**Start Date:** January 2015

## ENTRY REQUIREMENTS

**Applicants admitted onto the course will need to meet the following requirements:**

- Be qualified as a dental surgeon and have a license to practice dentistry
- Be registered with the General Dental Council (or equivalent)
- Be in professional practice or have a hospital appointment for a minimum of 2 years
- Be registered with a defence union - possessing indemnity insurance with cover at an appropriate level
- Possess a current certificate of immunisation against communicable disease (Hepatitis B)
- Have sufficient competency in English language (IELTS Level 7 or equivalent). Competency may be demonstrated by qualification, accreditation, prior learning or separate university assessment.

## DBS

All potential students must undergo an enhanced DBS check prior to admittance to the programme.

**Applicants must provide evidence of their IELTS Level 7 certificate (or equivalent), GDC certificate and indemnity insurance by either uploading a copy through an online application or providing a copy with their completed paper application.**

## FEES AND FUNDING

The standard fee for UK/EU students studying this course is below. For further information including the availability of bursaries/scholarships or student financial support please contact course bookings.

**Year 1** - £10,000

**Year 2** - £16,650\*

**Year 3** - £11,150\*

With regards to fees, we ask for six equal payments paid by Direct Debit which begin from 1st April 2015 and are payable on the first of every month thereafter.

\*NB Fees for Years 2 and 3 are subject to an annual inflationary increase in line with the university tuition fee policy.
