

Dental Implant course-advanced level at the Department of Oral and Maxillofacial Surgery Hannover Medical School

09.05.2016 - 11.05.2016

Prof. Dr. Dr. N.-C. Gellrich Professor and Chairman

Schedule

PD Dr. K.-H. Bormann Associate Professor

Day I	09.05.2016	Day II	10.05.2016	Day III	11.05.2016
09.00h	Welcome and introduction	09.00h	Live-Surgery III (see options)	<u>09.00h</u>	Live-Surgery IV
09.30h	Live-Surgery I (see options)	10.30h	Coffee break	11.00h	Coffee break
11.00h	Coffee break	10.45h	Lecture II	11.15h	Lecture IV
11.15h	Lecture I		Donor site improvements based on a biologically adequate treatment algorithm: augmentation in the aesthetic zone		The sinus lift: myths and truth; a rational approach to the alveolar recess treatment of the maxillary sinus
	Impact of 3-D-planning on treatment choice in modern implant dentistry	11.45h	Lunch	12.30	Lunch
	From virtual planning to Straumann Guided Surgery	40 45h		42 20h	Handa an practical:
		12.451	Lecture III	13.30N	Hands on practical:
12.30h	Lunch		The insufficient alveolar crest: strategies to correct deficient dimensions simultaneously or prior to implant placement		lag screw techniques, sinus lift procedures, bone harvesting, Piezo-surgery. Incl. instruments, material, sheep models etc.
13.30h	Live-Surgery II (see options)				
14 45h	Questions, Discussion		How to manage the implantation site in case of a deficient alveolar crest in the lateral mandible	15.00	Questions, Discussion
11.1011					End of the course
15 00h	End of day I		• • •		
10.0011			Special augmentation set, materials, technologies and aids	Live-Surgeries (Options):	
		14 15h	Questions, Discussion		atomically shaped transplant from the omatic buttress
				 Re-entry to the augmented area with insertion of Implants 	
		14.30h	Guided Clinic Tour		ntouring giving osteoplasty of the posterior entulous mandible site
		15.00h	End of day II	- Sin	us lifting procedures with simultaneous lant insertion
1000 1000
