

Advanced

– Soft Tissue Management

DR. MARIUS STEIGMANN

STEIGMANN
implant institute

PROWADZĄCY: Dr. Marius Steigmann
TERMINY: 17-18.05.2019
CZAS TRWANIA: Dzień I – 9:00-17:00
Dzień II – 9:00-17:00
MIEJSCE: Steigmann Institute
Bahnhofstraße 64
69151 Neckargemünd
Germany
GRUPA: maksymalnie 20 osób
CENA: 1950 € + VAT

INFORMACJA I REJESTRACJA:
Schmidtdental
Tel.: 58 341 22 06
E-mail: marta.ganska@schmidt-dental.pl
katarzyna.skura@schmidt-dental.pl

GBR, Blocks, Bone-Rings, Cortical-Plates-all need the adequate soft tissue management. This course will describe in detailed Step by Step procedure theoretical and Hands on predictable Soft Tissue Management procedure for small and high volume augmentation.

DAY 1

- Soft tissue tension free closure – step by step
- Tension free flap adaptation – multiple options
- Suturing techniques with and against tension
- Adequate soft tissue manipulation for thin and thick biotype
- Improve soft tissue thickness
- Gain soft tissue elasticity
- Create keratinized gingiva

DAY 1

- Soft tissue management for sinus lift
- Bone augmentation in the maxilla-palatal sliding flap
- Bone augmentation in the mandible
- PPF, VBF or Steipod
- PPF → Periosteal Pocket Flap
- VBF → Versatile Buccal Flap

Advanced Soft Tissue Management

We developed special flap designs and suturing techniques specific to location to solve this ongoing soft tissue management problem. The participants will learn and practice how to solve this soft tissue closure problem according to the location. The tissue thickness dictates the way it is manipulated for high volume augmentation. Thick biotype can be managed in a classical manner. On the other side thin biotype needs new surgical approaches with specific instruments. The course will describe step by step the gain of soft tissue for tension free closure even in cases of reduced soft tissue thickness.
