## CARES® Visual CAD Software

April 8 | May 11, 2020

17:00 (CET)

21:00 (CET)

### Optimize efficiency for CARES Visual

How to utilize software Settings, Material Management, Anatomy Kits, Filter materials etc.

April 10 | May 13, 2020

17:00 (CET)

21:00 (CET)

### CARES® Visual Angulated Screw Channel Abutment Design

Designing Variobase abutments with adjustment of implant screw channel.

April 15 | May 18, 2020

17:00 (CET)

21:00 (CET)

### CARES® Visual Virtual Model Builder

Importing intraoral scanner files to generate tooth-borne and Implant-borne model files for 3D printing.

April 17 | May 20, 2020

17:00 (CET)

21:00 (CET)

### CARES® Visual Virtual Wax-up Module Copy Scan Workflow

Overview of copy scan feature of existing Wax-up / denture setup for advanced screw-retained bridge. Recommended for advanced users only.

April 20 | May 22, 2020

17:00 (CET)

21:00 (CET)

### CARES® Visual Virtual Wax-up Module Digital Design

Overview of digitally design of full arch bridge and gingiva restoration.

April 22 | May 25, 2020

17:00 (CET)

21:00 (CET)

### CARES® Visual Virtual Wax-up Module Super Structure Workflow

How to create a super structure bridge on a full arch implant restoration.

April 24 | May 27 2020

17:00 (CET)

21:00 (CET)

### CARES® Visual Screw-retained Bridge Design Full Contour (SRBB)

Designing full contour screw-retained bridge with natural connectors in C&B module.

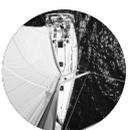

April 27 | May 29 2020

17:00 (CET)

21:00 (CET)

### CARES® Visual Digital Virtual Wax-up for Model Printing

How to generate a digital Wax-up and create a 3D model for printing.

May 8, 2020

17:00 (CET)

21:00 (CET)

### Synergy Workflow

Immediate temporary workflow with CARES® Visual and coDiagnostiX® software. Recommended for advanced users only.

## Why Digital Dentistry?

### A business and logistical review to survive and thrive in today's economy

April 20, 2020

17:00 (CET)

21:00 (CET)

### Why Digital Dentistry? - Session 1

#### A business and logistical review to survive and thrive in today's market

Explore ways a dental laboratory can serve specialists and restorative doctors treating select implant cases on an emergency basis.

April 27, 2020

17:00 (CET)

21:00 (CET)

### Why Digital Dentistry? - Session 2

#### A business and logistical review to survive and thrive in today's market

This webinar series will demonstrate the potential benefits digital dentistry can provide to your laboratory costs & clinical procedures. Production, business aspects, & systems that can be used for implementation will be discussed.

May 4, 2020

17:00 (CET)

21:00 (CET)

### Why Digital Dentistry? - Session 3

#### A business and logistical review to survive and thrive in today's market

Discuss practical improvements you can apply to your logistics and business strategies for an immediate impact on your business.
