AN ALL-STAR EVENT BRINGING TOGETHER THE SHARPEST MINDS FROM FOUR CONTINENTS!

Implant-based Oral Rehabilitation has been evolving around the world with a progression to a fully digital and interactive workflow. The question is whether this is enough to keep up with the pace of evolution in our patient's demands and expectations. To answer this question we bring together some of the sharpest minds from across the world in a unique 3-day summit.

This summit will be a platform for sharing the various techniques, exploring the digital space, and networking with like minded individuals.
