Live Patients with Dr. Riad Almasri, DDS,
and Dr. Pedro Rodrigues, DDS

Five Days of Hands-on Surgeries!

This live patient course prepares you to incorporate full arch implant restoration into your daily practice to serve the needs of the many patients who need it and probably already exist in your practice's patient pool. This course covers all phases of the procedure from treatment planning to surgery and prosthetics of the full arch immediate load concept for patients with terminal dentition and edentulous patients. Five days of surgeries combined with lectures. Each participant will have the opportunity to execute the minimum of three arches and convert one.

Learning Objectives:

- Understanding the fundamentals of the full arch implant rehabilitation using the tilted implant concept.
- Anatomical and CBCT interpretation connected with the placement of Implants.
- Patient selection and Treatment Planning – Pre- Operation Patient Condition Assessment and Post-Op care.
- The surgical procedure and prosthetic rehabilitation aspects.
- Understand complications and their management.
- Perform Hands-on live patient surgery.

Speakers

Dr. Riad Almasri is a specialized Implant-Prosthodontic surgeon. He received his D.D.S. [Doctor of Dental Surgery] and graduated with honors in 2003-ranking 1st in the oral surgery honors class. Dr. Almasri practiced general dentistry for several years prior to entering Nova SE University College of Dental Medicine, Ft Lauderdale, FL where he received his specialty certificate in Prosthodontics; serving as a Chief Resident and teaching other residents dental implant surgery. He is currently an Adjunct Faculty member of the College of Dental Medicine's Post-Grad Prosthodontic program. He has also established the Fast New Smile® as his brand name for the one-day dental implant procedure. Not only does he perform Full Arch procedure, but he also gives lectures about the procedure to dentists locally and nation-wide. Dr. Almasri's passion to give his best to patients inspired him to go to the Medical College of Georgia to get his Anesthesia training so he can offer IV sedation to his patients. Overall, Dr. Almasri is a pioneer in the world of dental implants.

Dr. Pedro Rodrigues graduated in 2002 with his degree in Dental Medicine and has been dedicated to Implantology and Prosthodontics ever since. He took his Post graduate in implantology and prosthetic over implants in 2003. His real passion and expertise is full arch rehabilitation and immediate loading with tilted implants without grafting. Dr. Rodrigues' first all on four was in 2007 with Neodent implants. In 2008, he was invited to work in the department of implantology with Dr. Paulo Malo (inventor of All-on-four) at MaloCkinic Porto, for 4 years, where all the philosophy of immediacy were developed. In 2010, he earned a Masters Degree in Oral Rehabilitation. During the last 15 years he developed his own concepts in full arch immediate loading (Full Arch Plus) for better efficiency and results with predictability and reproducibility, gaining huge benefits for his patients and business. His purpose is to give to his patients and share his experience and passion with the dental community. His first full arch course with live patients, was in 2011, and since then he has taught more than 50 courses with hands-on live surgeries with patients in Portugal and worldwide.
