# **ZAGA** **COURSE**

**ZYGOMATIC IMPLANTS**

*by Dr. Carlos*  
**APARICIO**

This intensive 3-day course is drawn from our 25+ years of experience with zygomatic implants in the rehabilitation of the extremely resorbed maxilla according to Zygoma Anatomy Guided Approach (ZAGA).

The course is designed for surgeons who want to discover more complex zygomatic implant cases and learn about the evidence-based ZAGA concept that consists of a series of techniques, materials and protocols designed to achieve predictable long-term results and prevent complications.

The benefits and limitations of different surgical techniques, including intra and extra-sinus approaches, will be discussed. Detailed insights into the ZAGA philosophy and the ORIS success code will be provided.

**July 20-22<sup>nd</sup> 2022**  
*Barcelona, Spain*

# LEARNINGS

*by Dr. Carlos*  
**APARICIO**

## **ZAGA Course delegates will have the opportunity to:**

- **Acquire evidence-based knowledge** on the use of advanced Zygomatic Implant treatment in different anatomical situations (ZAGA 0- 4).
- **Develop working knowledge** of different surgical techniques, their benefits and limitations including intra and extra-sinus.
- Gain an evidence-based understanding of the **ZAGA concept** for achieving predictable and successful outcomes.
- **Develop hands-on experience** with the new ZAGA-Straumann round and flat zygomatic implants developed by Dr Carlos Aparicio.
- Watch complex pre-recorded surgeries, and **practice placing implants on 3D models and cryopreserved human heads.**
- Learn how to **manage and prevent zygomatic implant complications.**

# PROGRAM

*by Dr. Carlos*  
**APARICIO**

**Wednesday, July 20<sup>th</sup>** Avenida Diagonal, 211

Theory - ZAGA Concept  
Recorded Surgeries and corresponding  
3D Models Hands-On  
Social Hour

**Thursday, July 21<sup>th</sup>** Avenida Diagonal, 211

Theory - ZAGA Concept - Complications  
Hands-on with the 3D Models corresponding  
to the cryopreserved head assigned

**Friday, July 22<sup>nd</sup>, 2022** Calle Casanova, 143

**Hands-on cadaver cryopreserved head**

**July 20-22<sup>nd</sup> 2022**  
*Barcelona, Spain*
