# MEDENTIWINGS

## SIMPLIFYING EDENTULOUS SCANNING.

MedentiWINGS is a new addition to Medentika product portfolio, designed to ensure precision and avoid challenges in intraoral scanning.

It connects distant Scanbodies to provide more reference points, enhancing your digital workflow and delivering greater accuracy, especially in edentulous cases.

**Improves Scan accuracy**

**Reduces rework and rescanning**

**Supports better denture fit**

**Utilized with new Medentika metal Scanbodies**

**Maintaining a cost-efficient digital workflow with full flexibility**

**EXPLORE HOW MEDENTIWINGS SIMPLIFIES YOUR EDENTULOUS SCANNING PROCESS!**

Click or scan the code for more details

Please note: For each Scanbody/Scanpost used, please ensure you select and utilize the corresponding digital library to guarantee accurate and successful outcomes.

# NEW DESIGN SCANBODIES

ENGINEERED FOR PRECISION  
AND DURABILITY.

**Compatible with Chairside & Lab Scanners**

**Laser Marked**  
for Easy Implant Compatibility Identification

**Special non-reflective surface treatment**  
No Scan Spray or Powder needed

**Reliable Performance**  
Perfect for dental professionals seeking streamlined workflows

## NEW IMPROVED SCANBODY-DESIGN

### Reusable and Sterilizable

Opportunity to use in multiple scans since it can be sterilized

### Reduced Diameter

Giving more space to adjacent teeth

The Medentika new design Multi-unit Scanbodies are soon available for all series.

Click or scan for our online shop

### Rounded Edges

Supporting scan-precision in CAD software

### Higher Body

More visible parts for the scanner

### Prolonged and Contoured Design\*

For management of the emergence profile (reduced pressure on soft-tissue, limited impact on hard-tissue, in case of bone over-growth allowing correct end position inside of the implant)

\*This part of the Scanbody may vary slightly from series to series to match the individual Implant.

Please note: MedentiWINGS are compatible to the new design Scanbody of Medentika (-SB). For each Scanbody/Scanpost used, please ensure you select and utilize the corresponding digital library to guarantee accurate and successful outcomes.
